Inking Roller

Conventional Printing

Compound	Shore A
179	25
279	30
379	35
479	40

-  Ink form roller
-  Distributor roller
-  Vibrator roller

Application

-  Best resistance to conventional inks
-  Suitable for FOGRA certified hybrid inks (when in doubt, use our complimentary chemical resistance test)
-  High ageing resistance

Features

-  OEM compound with all prominent press manufacturers

Note

-  Very good, even ink transfer
-  Extremely reduced expenditure for roller setting
-  Very good dimensional stability
-  Good washability
-  Stable print process
-  Long service life

Benefits
